Copremesis

Ingested

Starving and forgotten, drowning in bile.
Organs dissolved by stomach acid.
Vomiting your faeces over your emaciated frame.
Pyorrhea develops as the shit gushes past your teeth.
Oxygen depleting, shit rolls down your chest.
Lungs become weak as they fill with phlegm.
Maggots in your dick, mucus surrounds your feet.

Lying broken, fucking faggot screaming, forgotten, stinking.
Anus leaking, putrid rectum reeking, penis rotten fecal.

Feel the shit in your throat, you will die in a fecal choke
Regurgitate your own guts, blood and shit from anal cuts.
Re-digesting, vomit becomes shit disgusting.

Lying broken, fucking faggot screaming, forgotten, stinking.
Anus leaking, putrid rectum reeking, penis rotten fecal.

Suffocate in anal vomit
Dislocate the rectal passage
Faeces seeping from your orifice, vomiting your intestine tract
.
Your sphincters slack your rotting.
Feasting on your shitty remains
Copremesis.
