

Echoes of Hate

Ingested

Through the eyes of a slaughtered lamb
I fear no man I shall bear witness
Crack the world atlas carry the weight
Retaliate and dominate, the echoes of hate

I've been waiting, expecting
To watch the mask drop to the ground you hear that sound?
It's calling, you're falling, and if you think I'll lend a hand then think
Again you're fucked

Liar, traitor
Slithering vicious violator
I see you
Liar, traitor
Slithering vicious violator
I see you

Masters and slaves, carnival of liars
Hide in the shade, pushed into the light
Masters and slaves
Walk down the psycho path
Constantly caught in the aftermath

Face it, you're worthless
Revealed, exposed
Buried in chains of avarice it's true
Judas, Brutus, could you?
Stab them in the fucking back?
Face it, you're nothing
It's over, it's done
Engulfed by insecurities it's clear
Coward, betrayer, the fear
Has gripped you by the fucking throat

Masters and slaves, carnival of liars
Hide in the shade, pushed into the light
Masters and slaves
Walk down the psycho path
Constantly caught in the aftermath
In the aftermath

Liar, traitor
Slithering vicious violator
I see you
Liar, traitor
Slithering vicious violator
I see you
Liar, traitor
Slithering vicious violator
I see you
Liar, traitor
Slithering vicious violator
I see through you

Through the eyes of a slaughtered lamb
I fear no man I shall bear witness
Crack the world atlas carry the weight

Reciprocate, obliterate, retaliate and dominate
The echoes of hate
The echoes of hate
Through the eyes of a slaughtered lamb
I fear no man I shall bear witness
Crack the world atlas carry the weight
Reciprocate, obliterate, the echoes of hate

Liar, traitor
Slithering vicious violator
I see you
Liar
Liar, traitor
Slithering vicious violator
I see you
Traitor
Liar, traitor
Slithering vicious violator
Liar
Liar, traitor
Slithering vicious violator
