Erotic Depravity

Ingested

Nailed to the seat of pain, agonising torture gained
Poked and prodded 'til you bleed, eyes wide they make you watch them feed
Carcass in decomposition, cannibals feeding on flesh
Stabbed, beaten and gutted, perversion you find is best

Visions of a dying child, women beaten and defiled
Stimulated by the gore, your cock is throbbing from the thought
Depictions you found disturbing, have become your obsession
What you found once sickening, is your filthy fixation

The sight of maggots eating, the spike that's left protruding
What once was a normal human, tortured and twisted
The sight of maggots eating, the spike that's left protruding
What once was a normal human, tortured and twisted

All you want is misery, suffering is your sick desire
Watching people left to bleed, vile things that have transpired
Finding yourself masturbating on the people left castrated
Cock left numb with no more feeling, thriving on the mutilated

The sight of maggots eating, the spike that's left protruding
What once was a normal human, tortured and twisted
