

Bleed For You

Inglorious

Feeling wounded there is no great escape
My luck finally over, I'm dying of the shame

Don't ask me, how it's going
Never miss a break so can you please
Just give me the night and I'll find you
Only the night for sacrifice
Give me the night until it's over
My hands are tied
I bleed for you tonight

Shadows are lonely
They keep me here in chains
Can't look in the mirror
Reflect my guilt and pain

I'm not sure not that you were
Finished what I've started can you please
Just give me the night and I'll find you
Only the night for sacrifice
Give me the night 'til it's over
My hands are tied
I bleed for you tonight

Don't ask me how it's going
Never miss a break so can you please
Just give me the night and I'll find you
Only the night for sacrifice
Oh, give me the night 'til it's over
My hands are tied tonight
Give me the night for sacrifice
Oh, give me the night until it's over, yeah
My hands are tied
I bleed for you tonight
