

Change Is Coming

Inglorious

I feel a change is coming
And I know it's coming my way
I got my heart wide open
Gotta listen every word that I say

All the hard times hunny
And the troubles never far way
All the years of struggle will be worth it
When they hear me say

(I) I'm coming alive, yeah
Without you by my side
All those dark nights
I might leave them behind
And I know it starts today
A change is coming my way

And every single damn minute
Will be worth it when they're calling my name
I'm feeling ten feet taller
Watch the competition go down in flames

(I) I'm coming alive, yeah
Without you by my side
All those dark nights
I might leave them behind
And I know it starts today
A change is coming my way
Woo

(I) I'm coming alive, yeah
Without you by my side
All those dark nights
I might leave them behind
And I know it starts today
A change is coming my way
