

Glory Days

Inglorious

I guess you heard a whisper
Should've never kissed her anyway
I wanna tell you something
That it meant nothing, I'll hideaway, I'm ashamed

I can never do without
I'll stand right here
While you scream and shout
In my face, oh my face
I went wrong no doubt
I messed up so I'm going back
To my place, oh my place

Oh, and someone stop us
We are walking away
From glory days
Oh, and someone stop us
We are walking away
From glory days

I never knew such kindness
A different world when I'm in your embrace, ooh
If I could go back I would
Make it right, but I can't find a way and I can't stay

I can never do without
I'll stand right here
While you scream and shout
In my face, oh my face

Oh, and someone stop us
We are walking away
From glory days
Oh, and someone stop us
We are walking away
From glory days

I've taken all your trust
I know you've had enough
But darling, believe me
And I'll never make the same mistake...

Oh, and someone stop us
We are walking away
From glory days
Oh, and someone stop us
We are walking away
From glory days
Oh, and someone stop us
Coz we are walking away
From glory days
Yahoo... yahoo...
From glory days
