Hell Or High Water

Inglorious

Hear the fire roaring
You can see the people run
They flee the place where they come from
They are the victors
And they do what must be done
It won't be long before they're gone

Run and tell your people to think twice
It's suicide

I don't wanna be here anymore
Come hell or high water
We ain't gonna fear you anymore
Go tell your sons and daughters

Why are we divided
We must fight until we die
We pay the price they take our lives
I can't contain it
It's all here before my eyes
Nobody cares nobody's wise

Run and tell your people not to hide
It's suicide

I don't wanna be here anymore
Come hell or high water
We ain't gonna fear you anymore
Go tell your sons and daughters

We ain't gonna fear you anymore
Go tell your sons and daughters
