

High Class Woman

Inglorious

She isn't human
Heard it said that she's only playing the part
She's got so much magnetic power
Always ready to go
They say she'll have ya, have ya on your knees
Begging please

And I'll spend my money on women and wine
And don't you worry 'bout me girl I'm alright
And I've been all over and it's never enough
And that high class woman is the only one I ever loved

Hide from her kindness
She won't stop until she has your heart
She call the shots she takes them home and they already know
Lady looks they pretty but a penny's better luck so I'm told
And before I get old

And I'll spend my money on women and wine
And don't you worry 'bout me girl I'm alright
And I've been all over and it's never enough
And that high class woman is the only one

And I'll spend my money on women and wine
And don't you worry 'bout me girl I'm alright
And I've been all over and it's never enough
And that high class woman is the only one I ever loved

And I'll spend my money on women and wine
And don't you worry 'bout me girl I'm alright
And I've been all over and it's never enough
And that high class woman is

And I'll spend my money on women and wine
And don't you worry 'bout me I'm alright
And I've been all over and it's never enough
And that high class woman is the only one I ever loved

Oh...
She's the only one, only one
