

# Medusa

Inglorious

She's an evil witch, but she looks so good you can't resist  
And she's gonna take you home  
Keep your eyes wired shut, I really cannot stress enough  
That she'll turn you all to stone  
She give good loving, she got all that you need  
And she got love, lust and greed  
Committing murder in the first degree  
Don't give a fuck, she likes to feed

And I'm talking to you, so listen  
Or you'll never know what she thinking

Any moment she will feast her eyes  
Medusa will find you and terrorise  
An evil power over all mankind  
Medusa will find you and take your life

For forty days and for forty nights she was by your side  
She is bad to the bone  
If you think that you are gonna make it out alive  
Better lock your door and pray until she gone  
She give good loving, she got all that you need  
And she got love, lust and greed

And it's safe to say she's complicated  
And when think you know you're mistaken

Any moment she will feast her eyes  
Medusa will find you and terrorise  
An evil power over all mankind  
Medusa will find you and take your life

And I'm talking to you, so listen  
Or you'll never know what she thinking

Any moment she will feast her eyes  
Medusa will find you and terrorise  
An evil power over all mankind  
Medusa will find you and take your life

Any moment she will feast her eyes  
Medusa will find you and terrorise  
An evil power over all mankind  
Medusa will find you and take your life
