

Messiah

Inglorious

Never saying a word, the way it must be
You're living a lie, the air that you breathe
You want salvation, redemption is free
Can he save the people? Can't save himself
The message is clear, just figured it out
Claims he is the one, for the lost not the found

Don't suffocate us
You'll never take us alive
Alive

I, can't be the one that you need
You thought that I could be the answer
I am not the answer No
I, can't be the one that you need
Don't say that I am your Messiah
I am not the answer No

Now we're feeling sick, our bodies are tired
We follow the crowd, go along for the ride
Never asking enough, never questioning why
Natural selection is not what we need
Do we help the mouths of the one's we must feed
Another test of faith before you fall at his feet
Yeah

A prophet hated
Saviour to sadist tonight
Tonight

I, can't be the one that you need
You thought that I could be the answer
I am not the answer No
I, can't be the one that you need
Don't say that I am your Messiah
I am not the answer No

We are the children we must do what we're told here
In the house unholy

I, can't be the one that you need
Don't say that I am your Messiah
I am not the answer No
I, can't be the one that you need
You thought that I could be the answer
I am not the answer No
I, can't be the one that you need
Don't say that I am your Messiah
I am not the answer No
