My Misery

Inglorious

Quit playing with my emotions
Sick and tired you watch me bleed
Stop questioning my devotion
This is more than just you and me

But only you can make it stop
And hold the hands of time at bay
I'm sorry for the way I am
And I don't know what else to say

Am I passed the point of rescue
Great divide so close to me
And I try to slow down
As I fall to the ground
Something got inside of me
Someone come and rescue me
From my misery

Another story a lie misguided
It's amazing what they will see
I write a letter and those who find it
Won't believe me until they read

In every life there comes a time
To say goodbye to those we love
To those who care you'll see me there
Up in the moon and stars above

Am I passed the point of rescue
Great divide so close to me
And I try to slow down
As I fall to the ground
Something got inside of me
Someone come and rescue me
From my misery

And finally, I'm scared to jump
Before the virus takes a hold
Please take my hand and lead me down
From the darkness in my soul

Am I passed the point of rescue
Great divide so close to me
And I try to slow down
As I fall to the ground
Something got inside of me
Someone come and rescue me
From my misery
