

# Never Alone

Inglorious

Never could I do it alone  
You took me inside of your home  
Made me feel loved, gave me enough

World is so cruel, taken you too  
I wouldn't be if it weren't for you  
As the sunrise, it's time to fly, oh

Deep in the dark  
Our love will grow  
Follow the light  
He'll take you home  
Close now your eyes  
And know  
You're never alone  
Never alone

Can't explain how I feel  
You left the world praying we'll heal  
Here in our hearts, now open your arms, oh

Deep in the dark  
Our love will grow  
Follow the light  
He'll take you home  
Close now your eyes  
And know  
You're never alone  
Never alone

I can feel you, can you hear what I say?  
I'll think of you every breath that I take  
Thousand horses could not keep me away

Deep in the dark  
Our love will grow  
Follow the light  
He'll take you home  
Close now your eyes  
And know...

Deep in the dark  
Our love will grow  
Follow the light  
He'll take you home  
Close now your eyes  
And know...  
Just know...  
You're never alone

You're never alone  
Never alone  
Whoa...  
You're never alone  
Never alone
