

## Queen

## Inglorious

Real life ain't an easy ride  
You taught me to do what's right, oh  
How come when it comes to life  
The ones that we love are the ones we fight, oh

You raised us and now we're grown  
Made a house that we call our home  
Always given your time to me  
And you are the roots of our family tree

Never doubted a word you say  
My world, my queen and my day  
When I'm losing my direction  
You're my saving grace  
My world, my queen and my day  
Oh, every day

Many years you've been losing sleep  
Put us first gave us all we needed  
Wine to taste in a glass that's deep  
For better or worse we are family, hey

Never doubted a word you say  
My world, my queen and my day  
When I'm losing my direction  
You're my saving grace  
My world, my queen and my day  
Oh, every day

Never doubted a word you say  
My world, my queen and my day  
When I'm losing my direction  
You're my saving grace  
My world, my queen and my day  
Oh oh

Never doubted a word you say  
My world, my queen and my day  
When I'm losing my direction  
You're my saving grace  
My world, my queen and my day  
Oh, every day  
Hey yea yea  
Queen of my day  
Hey yea yea  
Queen of my day  
Hey yea yea  
Queen of my day  
Hey yea yea
