

Until I Die

Inglorious

Skies are burning, this old place is gone to dust
What's left is mine! Oh
I'd spend a million on the one I've lost
For laws that I feel fine!
Should have paid attention cause I know you're always right

You shout it out, came the smoke from your eyes
You won't live to see another day with me in paradise, no
I'd show you something, but you won't believe your eyes
I feel it deep inside, that tonight we're gonna fight until I die

You'd think I'm evil, just you wait
And see what's coming from behind, no
Left from the Devil, tonight you're gonna see him
You can't hide!
Should have paid attention cause I know you're always right
And now I'm gonna know your eyes, you're coming for my life

You shout it out, came the smoke from your eyes
You won't live to see another day with me in paradise, no
I'd show you something, but you won't believe your eyes
I feel it deep inside, that tonight we're gonna fight until I die

You shout it out, came the smoke from your eyes
You won't live to see another day with me in paradise, no
I'd show you something, but you won't believe your eyes
I feel it deep inside, that tonight we're gonna fight until I die
