

We Will Meet Again

Inglorious

Unleash me from this pain I caused me
Myself and I were born to die
Why should I do what must be done
If nothing matters in the end

And when my curtain starts to fall
Please tell me we will meet again
My lights gone out and I must go
Please tell me we will meet again

All my life has been in darkness
Where only you could see my light
I'm not afraid to watch me die
And if you care you'll see me there

And when my curtain starts to fall
Please tell me we will meet again
My lights gone out and I must go
Please tell me we will meet again

The final chapter's always best
Can't say I'm ready for what's next
No

And when my curtain starts to fall
Please tell me we will meet again
My lights gone out and I must go
Please tell me we will meet again

Please tell me, please tell me
Please tell me we will meet again
Please tell me, please tell me
Please tell me we will meet again
