

## We Will Ride

Inglorious

Cloak and dagger cannot see her  
Hear her gunshots then they fall at her feet  
Wicked lady needing money  
Had to find a way to make them see

Highwaywoman don't need your respect  
In a valley of death never knowing who is next

Run through the shadows I am the night  
Upon a thousand horses we will ride  
Run through the shadows taking what's mine  
Upon a thousand horses we will ride

Lady Katherine Queen of Mayhem  
Hear them whisper She's the Devil in White  
When they see her they freeze over  
As if they've seen a ghost a bump in the night

Highwaywoman don't need your respect  
In a valley of death never knowing who is next

Run through the shadows I am the night  
Upon a thousand horses we will ride  
Run through the shadows taking what's mine  
Upon a thousand horses we will ride

Run through the shadows I am the night  
Upon a thousand horses we will ride  
Run through the shadows taking what's mine  
Upon a thousand horses we will ride

Upon a thousand horses we will ride  
Upon a thousand horses we will ride
