

## Firefly Ride

Ingram Hill

Can I talk to you again?  
Pull you away from all your friends  
I've got somewhere for us to go  
But if you don't know  
Then I can show you  
Bring you back tomorrow

Will you let me take you on my firefly ride?  
Ten miles high, starlit sky  
Will you let me take you on my firefly ride?  
Tonight, tonight, tonight, tonight  
(2x)

Heard it a hundred times before  
I've got all you'll want and more  
So let my hand hold on to yours  
But if you don't know  
Then I can show you  
Bring you back tomorrow

Will you let me take you on my firefly ride?  
Ten miles high, starlit sky  
Will you let me take you on my firefly ride?  
Tonight, tonight, tonight, tonight  
(2x)

So don't worry about  
What they're saying now  
There's no need to wait  
I want you to stay  
So don't worry now  
Don't have a doubt  
I'll give you a night you'll never forget

Will you let me take you on my firefly ride?  
Ten miles high, starlit sky  
Will you let me take you on my firefly ride?  
Tonight, tonight, tonight, tonight  
(2x)
