

Lady Grey

Ingram Hill

She's never rosy
She's sometimes down
She's got a blue side
Let her out, let her out right now
She's never green
She's been around
She's got a dark side
She's been found on the wrong side of town
Sometimes she's golden
Belle of the ball
I never told her
That I don't wanna see her fall
Give my heart just save tomorrow
When I go, Lady Grey won't follow
Little Miss Snow White
She gets so high
Queen of the bright light
While her life keeps passing her by
Hair brown as autumn
Streaks of blonde
I wish she'd see me
But I go on just before she's gone
Give my heart just save tomorrow
Where I go, Lady Grey won't follow
Running around and her life is hollow
Where I go, Lady Grey won't follow
Shallow grave, bottomless and hollow
Where I go, Lady Grey won't follow
She wants to go higher than the stars
She wants to know how to hide her scars
She doesn't know she's gone to far
