A dark clear sky above our heads

You're tongue is cold but still your heart it bleeds for someth ing more

Bittersweet memories from my bed

Haunt your world of trust that crumbles in between my hands

But still I see there's no way out

You think you've gone somewhere, but there's no way I'm leaving you behind

So I'm goin' now but you know that I'll come back
You know I don't give up that easy
But before you think I'm gone for good
Our story's not yet over, the timing's just not right for me to night

A common life just shoved aside Uncommon bearing of a word that's just been thrown around Rescued by our senseless style Without a chance you say you're tired of all this pain inside

Tonight you turned your eyes from me
But there's some things that you don't see
You can't get what you want from me right now
