

Afterlife

Ingrid Michaelson

When the world is breaking down around you
You're taking everything that you know
What you didn't know is that we can go forever if we want to
We can live inside our moment
The one that we own

You and me, we got this
You and me, we're beautiful, beautiful
We all know we're gonna be alright
We got it, we always got the fight
We all, we all gonna live tonight
Like there's no tomorrow
Cause we are the afterlife

Livin' like the diamonds
Livin' it all
Give me your cold hands, put them on my heart
Raise a glass to anyone
Who thinks that it will never make it through this life
To live a brand new start

You and me, we got this
You and me, we're beautiful, beautiful
We all know we're gonna be alright
We got it, we always got the fight
We all, we all gonna live tonight
Like there's no tomorrow
Cause we're the afterlife
Cause we're the afterlife
Cause we're the afterlife

Every time I close my eyes
I hear your favourite song
Telling me not to run, not to worry anymore
I can hold on tight, better than the rest
So is now and never more

We all, we all gonna be alright
We got the fight in our
We all, we all gonna live tonight
Like there's no tomorrow
Cause we're the afterlife
Cause we're the afterlife
Cause we're the afterlife

We all, we all gonna be alright
We got it, we always got the fight
We all, we all gonna live tonight
Like there's no tomorrow
Cause we're the afterlife
Cause we're the afterlife
Cause we're the afterlife

We all, we all gonna be alright
We got it, we always got the fight
We all, we all gonna live tonight
Like there's no tomorrow

Cause we're the afterlife
