

## Blue Shutters

Ingrid Michaelson

Do you want to live there with me?

Do I wanna live with you in a scary, haunted house?

I'll paint the shutters blue  
I'll wrap a porch around the whole entire house  
So we can watch the sunset  
And the sunrise too  
Who needs sleep  
When it's me, that house, and you

Breakfast in bed at noon  
We'll plant a garden in the backyard by the river  
Living off the things we grow  
And growing as we live  
Can you see?  
It's just me  
That house  
And you

So it's our house

That's our house
