

# Don't You Worry

Ingrid Michaelson

Don't you worry  
Everything will be alright  
I have got you

Don't you worry  
Everything will be so bright  
Let's write your story

Beautiful things are right around the corner  
For you  
So don't you worry  
Everything's alright

Just close your eyes and breathe in with me  
And when the sun pulls back up in the sky  
Then you'll see  
I'll always be here to guide you home  
Even when you think that you're alone

So don't you worry  
Everything will be alright  
I have got you

Don't you worry  
You'll be alright
