

Good Time

Ingrid Michaelson

I'm gonna give it a good try
Turn the bad luck into gold
I'm gonna give it a good life
Pour a little bit of heart and soul
I've been looking for a silver lining
Just enough to get me through
And I'm gonna call it a good time
As long as I'm here with you

It's hard to have a ball
When there's no party
It's hard to love at all
When you're restarting

That hero's gonna show
But it's always after
That brick and yellow road
Sometimes brings disaster

I'm gonna give it a good try
Turn the bad luck into gold
I'm gonna give it a good life
Pour a little bit of heart and soul
I've been looking for a silver lining
Just enough to get me through
And I'm gonna call it a good time
As long as I'm here with you

You, you, you

Can't stop the bleeding
Can't change the weather
It will be what it is
No worse, no better

We're never young enough
Until we're older
It's never good enough
Until it's over

I'm gonna give it a good try
Turn the bad luck into gold
I'm gonna give it a good life
Pour a little bit of heart and soul
I've been looking for a silver lining
Just enough to get me through
And I'm gonna call it a good time
As long as I'm here with you

You, you, you

I'm gonna give it a good try
Turn the bad luck into gold
I'm gonna give it a good life
Pour a little bit of heart and soul
I've been looking for a silver lining
Just enough to get me through

And I'm gonna call it a good time
As long as I'm here with you
