

It Never Ends

Ingrid Michaelson

Hey
When you're coming apart
When you're coming up empty
Like a shot in the dark

Hey
When you're closing your eyes
I know that you're tired
Let me tell you again

All the light I'm seeing
Is coming from you
All the light you're needing
Is coming from you
And it never ends
And it never ends
And it never ends
And it never ends

So
Just let it go
Everyone feels like this
You're not the only one
The light I'm seeing
Is coming from you
All the light you're needing
Is coming from you
And it never ends
And it never ends
And it never ends
And it never ends

You shine the light you got inside with all your might
Just make it brighter and brighter
You shine the light you got inside with all your might
Just make it brighter and brighter

All the light I'm seeing
Is coming from you
All the light you're needing
Is coming from you
And it never ends
And it never ends
And it never ends

All the light I'm seeing
Is coming from you
All the light you're needing
Is coming from you
All the light you're needing
Is coming from you
And it never ends
And it never ends
And it never ends
And it never ends
And it never ends
