

## Save Me

Ingrid Michaelson

Licking my fingers, cracking my bones  
I'm always ready for a fight  
But you make it calm down, you got the right sound  
And I'll let you win tonight

I'll let you save me, save me, save me tonight  
Why don't you try to save me, save me tonight

I thought I knew the answer was you  
But now I know it's always me  
So I'll take it down, I want to be found out  
Everybody needs to be

I'll let you save me, save me, save me tonight  
Why don't you try to save me, save me tonight

I feel nothing you feel everything  
And you give me something that I can defend  
In the end

I'll let you save me, save me, save me tonight  
Why don't you save me, save me, save me tonight

I'll let you save me, save me, save me tonight  
Why don't you try to save me, save me tonight
