

Starlight

Ingrid Michaelson

They say that we might all be made of starlight
Baby, when I'm with you, I know it's true

We're like a rainbow in the sky
There's no beginning or end that I can find
This love is endless, this love is true
We say forever, cause that's what people do
But forever is just today, this is all that I can say
When the sun comes back from where it's been
Oh I'll be choosing you again

We're not a movie, we're not a song
There is no chorus for you to sing along
But when you say my name my heart grows strong
Maybe forever has been here all along
Because forever is just today, this is all that I can say
When the sun comes back from where it's been
Oh I'll be choosing you again

They say that we might all be made of starlight
Baby when I'm with you, I know it's true

I can't promise you the moon
Oh, I can't even promise that I will be home soon
But you leave the light on, like you do
Because you know I'm always coming home to you

(Coming home to you)
(Coming home to you)
Can you leave the light on
(Coming home to you)
Can you leave the light on
(Coming home to you)

Our forever is just today, and it's all that I can say
Our forever is just today, it's just today, it's just today

When the sun comes back from where it's been
Oh, when the sun comes back from where it's been
When the sun comes back from where it's been
Oh I'll be choosing you again
