

# This Christmas

Ingrid Michaelson

Hear the bells ringing  
Hear the kids signing  
This is how it should be  
When the snows swirling  
And the fire's burning  
I can finally believe  
In something dear  
This time of the year  
Let us gather together

This Christmas I'm right where I want to be  
This Christmas I'm holding love close to me  
It's family and friends, beginning and ends  
It's everything all in between  
Let's make this Christmas the best we've ever seen

Sugar plum wishes  
Mom and dad's dishes  
Castles high in the sky  
Golden rings spinning  
Carols all singing  
Magic fills up the night  
I hold on dear  
This time of year  
Let us all sing together

This Christmas I'm right where I want to be  
This Christmas I'm holding love close to me  
It's family and friends, beginning and ends  
It's everything all in between  
Let's make this Christmas the best we've ever seen

This Christmas  
This Christmastime  
This Christmas  
This Christmastime

It's family and friends, beginning and ends  
It's everything all in between  
Let's make this Christmas the best we've ever seen
