

This Is War

Ingrid Michaelson

It's a wonder at all that I'm alive
It's a wonder at all that I'm still standing
It's a wonder at all that I survived the war

Between your, between your heart and mine
Between your, between your heart and mine

I won't surrender
I will fight better
You lock me out, you knock me down
But I will find my way around
I won't surrender
This is war

It's a wonder at all that I can see
It's a wonder at all that the sky is not falling down
It's a wonder at all that I decide to breathe
Anymore...anymore...anymore

I won't surrender
I will fight better
You lock me out, you knock me down
But I will find my way around
I won't surrender
This is war
This is war

This is war, this is war
I will run until I can't run anymore
Someone's got to lose
It's not gonna be this girl this time

I won't surrender
I will fight better
You lock me out you knock me down
But I will find my way around
I won't surrender
I will fight better
And this is war
This is war
