

Wait There for Me

Ingrid Michaelson

All the stars are out tonight
I can count them if you like
When it's oh so quiet
That's when my mind
Gets louder and louder inside

Even though
Times may go
Up and down
And all around
I know you'll wait there for me

When the stars are in your eyes
Like a buzzing blinding light
And you can't see past our
Night and our day
Well that's when I'll stay

Even though
Times may go
Up and down
And all around
I will be waiting for you

In this world
I have you
You have me
How lucky can we be?

In this world
I have you
You have me
How lucky can we be?

In this world
I have you
You have me
How lucky can we be?

In this world
I have you
How lucky do two people get to be?

Even though
Times may go
Up and down
And all around
I know you'll wait there for me
(I will be waiting for you)
I know you'll wait there for me
