

# We Belong

Ingrid Michaelson

When I think of you  
I see life in color  
When you think of me  
I hope that you wonder  
What this life can bring us  
If we remember  
If we remember

That everything that we need  
Is everything we got  
Follow the home that's in your heart  
That's where we are and  
Isn't it so amazing  
Out of all the places  
That we're face to face and  
Right where we belong

When the day is through  
There's always tomorrow  
I'll save a seat for you  
And every day that follows

'Cause everything that we need  
Is everything we got  
Follow the home that's in your heart  
That's where we are  
And isn't it so amazing  
Out of all the places  
That we're face to face  
And right where we belong

If we remember  
We're all just made of stardust  
In the end, my friend

'Cause everything that we need  
Is everything we got  
Follow the home that's in your heart  
That's where we are  
And isn't it so amazing  
Out of all the places  
That we're face to face and  
Right where we belong

When we remember  
When we remember  
We're right where we belong
