

# Ground Subzero

Ingrowing

Reaching the level of the most useless lives  
Clones are stealing everything making sense for us  
Dividing the relationships, dividing the world  
Reprobated Originals, scuttling from clones mankind horde

It is not a dream  
We are less than a zero  
We are lower than under ground  
Reaching new level subzero ground, subzero ground

Living is a fucking nightmare with clones behind you  
There's no such one who can discern between lie and truth  
Murders or the terminations, it's our daily feed  
Our world was overruled with hatred of clones breed

Desintegration of refusing throng  
All you ever knew melts in chaos of drones

Ground subzero, all relatives I desiderate  
Ground subzero, hate I feel, it suffocates

Reincarnation of our worst dreams  
Sunset of humans, end is near it seems

Derelicts I meet each day in debris of their fate  
Eyes empty, with no future, I feel despair too late
