

Chain

Ingrown

Get back boy
Cuz you're starting to piss me off
And I've been shoved into this corner for far too fucking long
I'm sick of all this fucking attention that you love to shove down my throat
Your fucked up crew ass bully shit ain't gonna fly

Since day one feeling at fault
I can't speak up

Talk and talk, no face to face
Never going forward, only stepping backward
The shit you preach to hate is what you're made of
When will this childish shit end
