

Unite

Ingrown

Might makes fuckin' right, and we put up a fight
Don't sit idly by, we got reasons why
To stick fuckin' tight, our right to unite
They can't bring us down, not without a fight

Fuck with us, they'll always try, point out flaws, more unheard
cries
That don't mean shit to us, it's them, not us who's fucked this
up
But we found our way to rise above, no chance in hell that we'd
give up
Loyalty to who you got defeats what's designed to divide

We fight for each other, no other goal in sight
Needs no vote, can't be banned no matter who tries
We know how this works, we know they're full of shit
Though once I was blind, now I can see

That might makes fuckin' right
Our right to unite
Always put up a fight
For our right to unite

You won't ever fuckin' stop us
