

Watch Your Back

Ingrown

You're fucked

I don't know what else to tell you but you gotta stay in the fight

Make the best of what you got even with no light in sight

Don't let the doubt take over, just believe in fuckin' somethin' g

Or turn on everyone and try and push your way through the cracks

Think you got it figured out?

Not enough to roll this way unless you wanna fuckin' pay

Keep it up, I'd be surprised if you didn't die of shame

Take a step back and work together or learn to shut your fuckin' mouth

If you wanna fuckin' make it, watch your back

Motherfucker, you ain't even seen shit yet, bitch

Watch your back

Who's to say what's the way to get ahead in life

Don't believe everything you read or, at least, do it twice

All your lies will catch up with you, run and hide, don't know why

And you can write in your regrets and live in this hell you put yourself through

If you wanna survive this on your own, then

Watch your back, motherfucker
