

# Hush

Inhabited

Hush goodnight  
Ill kiss you u goodbye  
To every thought destroying my life  
Hush goodbye ill walk in the light  
Go away, don't come back  
Im saying goodbye

Where my girls at that are sick and tired  
Of buying into all the same old lies  
Cuz sooner or later it will catch up to you  
I know you want to change but you don't know what to do  
Where my girls at  
Tell me where my girls at  
Where my girls at  
Tell me where my girls at

I'm not gonna listen, I'm saying goodbye  
I'm not gonna listen, cuz you're taking my life  
Not gonna listen, I'm saying goodbye  
Not gonna listen because you're taking, you're taking  
my life

The mind works like stop, play, rewind  
The junk we let in will affect us in time  
And sooner or later no, we're not the same  
The voices in our head, they're driving us insane  
Where my girls at  
Tell me where my girls at  
Where my girls at  
Tell me where my girls at

I'm not gonna listen, I'm saying goodbye  
I'm not gonna listen, cuz you're taking my life  
Not gonna listen, I'm saying goodbye  
Not gonna listen because you're taking, you're taking  
my life

Where my girls at, let me hear ya if you don't care  
Where my girls at, let me hear ya if you're out there  
Where my girls at, let me hear ya if you don't care  
Where my girls at, let me hear ya if you're out there  
Where my girls at that are sick and tired

I'm not gonna listen, I'm saying goodbye  
I'm not gonna listen, cuz you're taking my life  
Not gonna listen, I'm saying goodbye  
Not gonna listen because you're taking, you're taking  
my life
