

# Ain't No Trip To Cleveland

Inhale Exhale

My imagination is running wild away from me  
I can't talk when you speak  
I can't speak when you talk  
Let's give these words a whole new meaning

Close your mouth and just understand  
That the meanings are twisted  
I see a wiser man on top  
Show me who you are

We are not the same as we choose to be  
Were just a changing breed  
For the better we will stand and seek the truth  
It's gonna be alright let's just take our time

My anticipation has got me all tied up in knots  
No one see no one cares  
No one read your thought  
So speak loud and speak clear or we will drive you nuts

We are not the same as we choose to be  
Were just a changing breed  
For the better we will stand and seek the truth  
It's gonna be alright let's just take our time

You're turning the pages of your life  
And burning them when you are through
