Eddie In The Darkness

Inhaler

If I was with you now
I'd say I was fine
I'd say I'm wanting to hide myself
Somewhere easy to find
Oh, if I could split the sun
With a stone
If I was a betting man
Would you leave me alone?
Oh-oh, oh, oh-oh

I can mind the day
But if you need the night to spend

Eddie's in the darkness (The darkness)
Doesn't need to know
What he had to get away from (Away from)
Something tells you
Got a little heartless (Heartless)
For too long
He's headed where the dark is
I'm with Eddie in the darkness

I wanted to lay you down
In sacred light
You're brighter than the moon
As the day suffers night
And I'm back in my room again
It's no holy place
See that I close the door
On your wide open space

Ooh, I can be a wreck
Sticking out the sand
Living from the light
In the palm of your hand
I can mind the day
If you need the night to spend
But instead, I

Eddie's in the darkness (The darkness)
Doesn't need to know
What he had to get away from (Away from)
And I don't wanna tell him
Got a little heartless (Heartless)
For too long
He's headed where the dark is
I'll make a mess of it
I'm with Eddie in the darkness

I'm with Eddie in the darkness

Oh my back against
This wall of isolation
Crossed the top of my skull
I'm dancing in the street
Like no one's watching
I sweared

```
In Southern Houston
Where I left my words
To dry
I visit but it's living in the dark
And too soon
There's no blue
But something tells you

Eddie's in the darkness (The darkness)
Doesn't need to know
What he had to get away from (Away from)
And I don't wanna tell him
Got a little heartless (Heartless)
For too long
Heading for the darkness
I'm with Eddie in the darkness
```
