

Even Though

Inhaler

Set loose from my rage
Like a bird from a cage
I guess in some kind of way
You hate to see me like that

And you know
You know you're not the only one
I said was the only one
Oh

Even though
She's got the brains to know
And a body that moves
Like there's nowhere to go
Even though
All of your friends must know
We're going nowhere fast
I know you're not the only one

Be my design
Be my spirit guide
Found my body in a grave
Took a chance to steal it
And you say
Stay the same
Oh, nothing has to be the way it was

Even though
She's got the brains to know
And a body that moves
Like there's nowhere to go
Even though
All of your friends must know
We're going nowhere fast
I know you're not the only one

And you say
You know you're not the only one
Nothing has to be the way it was
You say
Stay the same
Nothing has to be the way it was

Even though
She's got the brains to know
And a body that moves
Like there's nowhere to go
Even though
All of your friends must know
We're going nowhere fast
I know you're not the only one
I know you're not the only one
