

# Falling In

Inhaler

My oh my  
When you talk to the ceiling  
You talk to yourself  
What a glorious feeling  
Man, I like it a lot  
Can't tell me to stop  
When I'm on my throne  
I'll have you know

Falling in  
Oh, you just don't know what you're missing  
When you disappear  
Yeah, you got to know  
I'm telling ya  
You're kicking out on something  
I could be one of those guys  
Look into my eyes

My oh my  
My little heart's bleeding  
Compromising my health  
But I can't shake this feeling  
A shot in the chest  
Couldn't wake you up  
You need a human touch  
It's never enough

Falling in  
Yeah, you know I'm gonna miss you  
When you disappear  
Yeah, I got to know  
I'm telling ya  
I'm missing out on something  
I could be one of those guys

You wanna be easy  
You wanna relax  
You wanna come closer  
You wanna go back  
And they think you're crazy  
They don't understand  
You wanna get over  
Hold my hand

I'm falling  
I just  
Oh, just want to disappear  
Yeah, you got to know  
I'm telling ya  
You're missing out on something  
I could be one of those guys

I know  
I know  
I know  
I know

Yeah, I'm falling in  
Barely holding on  
You break me apart, apart, apart  
But you can't stop  
Yeah  
Just can't stop  
Can't stop  
Oh, you just can't stop

You wanna be easy  
You wanna relax  
You wanna come closer  
You wanna go back  
And they think you're crazy  
They don't understand  
You wanna get over  
Hold my hand

Falling in  
Falling in  
Oh, don't go
