

## Little Things

Inhaler

You and I at the world's end  
Paying for houses in our heads  
And if you stay like you appear  
I won't disappear into what I fear

Little things, little things  
Nothing's gonna change the way I feel about  
Little things, those little things  
Nothing's gonna change the way I feel about

I'll take my shot, I ain't gonna miss  
Confirming that my ignorance is my bliss  
Ain't gonna waste it, I could be what I'm not  
You reach for the stars when they're all you've got

Little things, little things  
Nothing's gonna change the way I feel about  
Little things, those little things  
Nothing's gonna change the way I feel about

I will shut you out  
Sleeping with the neighbours for a while  
I will shut you out

Little things, oh, little things  
Nothing's gonna change the way I feel about  
Little things, those little things  
Nothing's gonna change the way I feel about
