

Open Wide

Inhaler

Messed up in bed
Dreams held us higher
We swore that nothing could come and free us
When it's too hard to stretch out over wire
The need for silence slowly killing you

I don't need these ties
As much as I need freedom from you
You got your arms out open wide
You say come on baby, take a look

I'll stay with you
When you are cruel to the violent thoughts in your head
But sometimes you'll do much worse
You can't reverse the beautiful things you said

Yeah, in blue jeans, the faded color
'Cause we wear them always
Yeah, we trampled on holy ground
So you could throw your toys out of the crib

And I'll hold down these ties
As much as I want freedom from you
You got your arms out open wide
You say "come on baby, take a look"

I'll stay with you
When you are cruel to the violent thoughts in your head
Sometimes you'll do much worse
You can't reverse the beautiful things you said

Yeah
Love is a terror, when they stick together
Love is a terror if it's all forever
Love is a terror
Got my arms out open wide
Got my arms out open wide
Yeah, arms out open wide
Come on baby take a look
Inside

I'll stay with you
When you are cruel to the violent thoughts in your head
But sometimes you'll do much worse
You can't reverse the beautiful things you said

Got my arms out open wide
You got your arms out open wide
Your arms out open wide
Your arms out open wide
