

## Save Yourself

Inhaler

I know that feeling  
Fear built up inside your chest  
I know the password  
Watching the tower slide down your neck

All this confusion  
Do I live, or do I die  
Change the password  
One too many times

You can save yourself  
You can save yourself  
You don't need my help  
Save yourself

You know my secret  
Watching the words trickle down  
Onto the sea floor  
Watching them fall, watching them fall

You can save yourself  
You can save yourself  
You don't need my help  
Save yourself

Save yourself  
You can save yourself  
Don't need my help  
Save yourself
