

When I Have Her On My Mind

Inhaler

I'm walking by where I first met you
I'm saying hello but I don't wanna forget
We let the summer burn through the month of November
We used to fly so high from what I remember

You can try but I won't care
And we can drive for miles but only she can get me there
And all your signs, I'm glad they don't lead me anywhere
Oh, I don't wanna burn out, baby, so why can't I stay a while?
When I have her on my mind
On my mind

The time goes by, still it won't move me
And the words I should've found came to me too slowly
You're trying your best to please somebody
No one said it would be hard but goodbyes are never easy

You can try but I won't care
We can drive for miles but only she can get me there
And all your signs, I'm glad they don't lead me anywhere
I don't wanna burn out, baby, so why can't I stay a while?
When I have her on my mind
On my mind

You say you never saw it coming
But you ain't got that thing she has
I know enough about it, take me as I am or leave here fast
I don't wanna hear about it
Got the wrong place at the right time
And you know, but you can't win
Yeah, you know she's on my mind
All the time

Yeah, you know
When I have her on my mind
Yeah, you know
When I have her on my mind
When I have her on my mind
