

When It Breaks

Inhaler

What's it gonna take
For this storm to break?
You don't know what you've got
Until it's taken away
I'm not too scared to turn and face it
Well, I'm just waking up
It's true to changing

I like this feeling
I'm not dreaming anymore
Upstairs is leaking
Gonna have to kick in the door

Oh, when it breaks
I know you're gonna be there
I know you're gonna be there
There's a storm hanging over this place
You're gonna wanna see it when it breaks
I know we're gonna be there
I know we're gonna be there
I wanna see your beautiful face
You know we're gonna be there when it breaks

How much does it ache?
When your bones break?
It seems so hard to tell
What's real or fake
Can't let this moment go to waste

I love this feeling
We're not dreaming anymore

I know you're gonna be there
I know you're gonna be there
When the storm's hanging over this place
You're gonna wanna see it when it breaks
I know we're gonna be there
We're all gonna be there
Wanna see your beautiful face
You know we're gonna be there when it breaks

Like Paris in 45
The whole world waiting to come alive
I know you're gonna be there
I know you're gonna be there when it breaks

I know you're gonna be there
I know we're gonna be there
It's such a beautiful place
I know we're gonna be there when it breaks
I know we're gonna be there
Imagine what we'll see there
Statues down in every town
You're gonna see it when it breaks
You're gonna see it when it breaks
You're gonna see it
