

X-Ray

Inhaler

My time just slips away
It's your smile that's all forever

Gravity, oh, hold me down
Unwillingly against
Like a satellite around your head

Feels like heaven
Feels like heaven
Even if there's not one
I will chain myself to your soul, oh

Your time is a thief I'll chase
I don't mind growing, if we grow together

Gravity, hold me down
Unwillingly against
Like a satellite around your head

Feels like heaven
Feels like heaven
Even if there's not one
I will chain myself to your soul, oh

We are animals
Made of meat and bone
In the X-ray
(X-ray)
I will chain myself to your soul (X-ray)
I will chain myself to your soul (X-ray)
I will chain myself to your soul (X-ray)

Feels like heaven
Feels like heaven
Even if there's not one
I will chain myself to your soul, oh
(Heaven)
We are animals (Heaven)
I will chain myself to your soul
(Heaven)
In the X-ray
