

Eden

Iniko

Beauty's in the eyes
Of the one that's holding you
So I don't wanna let you go
Eat of my forbidden fruit
I'll be the Adam to your Eve
And I don't ever wanna let you leave
And like the apple from the tree
We are bounded but free

I'm drunk on your venom
Take my ribbon or my love
I just can't get enough of this sin
Get lost with me
In our garden of Eden
Eden

I think I'm lost
I think I'm lost in your Bermuda
No we are not Saints
But I'll make you cry out hallelujah
The serpent whispered in my ear
And told me things
I never thought were true
He said, "My fruit is fully plentiful
And tastes like honeydew."

I'm drunk on his venom
Take my ribbon or my love
I just can't get enough of this sin
Come find me
In our garden of Eden
Eden

Won't you cover me like rain
Quench my thirst, baby
I don't feel the pain
Won't you sink into my skin
And anoint me with you sin

You are my beginning and my end
You are my genesis and my revelation
You are my scriptures

Eden
I find you in my garden of Eden
I find you in my garden of Eden
Eden
Eden
