

# Invasion

Iniko

Are you ready  
Are you sure  
Are you coming  
You keeping score  
What you wearing  
When they land  
When they start speaking to you  
Do you understand

If they challenge you  
Will you fight  
Are you on the dark side  
Or the light  
Are you protected  
Are you scared  
This shit 'bout to hit the fan  
Are you prepared

It's the end of the world as we know it  
And I'm glad  
'Cause I been steady waiting on my makers  
Any takers  
When I meet 'em at the portal  
Tell 'em how these people wylin  
Tell 'em y'all took the knowledge  
That they gave us, tried to hide it  
It's an invasion  
Of what you think you understand  
You really think you understand  
But you so fucking arrogant  
To even think you'll understand

I'm the secret that they tried to keep  
Tried to tell me who and how to be  
That God you pray to once became the sea  
And so I drank, now they're inside of me

We are the sickness, they're the remedy  
When out of tune, they were melodies  
You waiting on the rapture, will you know it when it's here  
You listening out for trumpets  
But the chariots are here

It's the end of the world as we know it  
And I'm glad  
'Cause I been steady waiting on my makers  
Any takers  
When I meet 'em at the portal  
Tell 'em how these people wylin  
Tell 'em y'all took the knowledge  
That they gave us, tried to hide it  
It's an invasion  
Of what you think you understand  
You really think you understand  
But you so fucking arrogant  
To even think you'll understand

You took our people  
Bound them to shackles  
You burned our villages  
And built up chapels  
I know you're comfy  
But don't you question  
The motivation  
The intervention

We are not from here  
We're star people  
We are gods like them  
We are equal  
If you think it's bad now  
This is a prequel  
And they're coming in on ships  
For the sequel

It's the end of the world as we know it  
And I'm glad  
'Cause I been steady waiting on my makers  
Any takers  
When I meet 'em at the portal  
Tell 'em how these people wylin  
Tell 'em y'all took the knowledge that they gave us, tried to hide it  
It's an invasion  
Of what you think you understand  
You really think you understand  
But you so fucking arrogant  
To even think you'll understand
