

Motion

Iniko

Body in motion
Keeps me in motion
Can you tell me the potion
'Cause it feels like an ocean

Are you ready for the lineup
'Cause it's free of charge, you should sign up
Oh baby, where you come from?
'Cause I see that you ain't got no one to

And I was really hoping
You got my notice
So can you notice me?
I could be the place that you run to
Baby come through
You a fantasy

You're feeling that feeling
Reel it in and
Just count to three
I could be the place that you run to
Baby come through
You a fantasy

Caught you a wave then you drown in it
Your connection's infecting my godliness
Can you feel it? 'Cause I see it
And you'll see, come on breathe, let's just breathe it in

I'm so stuck on your taste I can't explain
The thing you do to my safe space
You become a lifeline, you become the veins, yeah
You remain in control like a videogame

And I was really hoping
You got my notice
So can you notice me?
I could be the place that you run to
Baby come through
You a fantasy

I'm feeling that feeling
Reel it in and
Just count to three
I could be the place that you run to
Baby come through
You a fantasy

You're a fantasy
Fantasy
Fantasy

I'm so stuck on your taste I can't explain
The things you do to my safe space
You become a lifeline, you become the veins, yeah
You remain in control like a videogame
