

# Death Ray

Injected

Ride my death ray  
Head long for straight-aways  
It won't burn out, it just fade away  
Over on one of them, I'm here to stay

Well, I find you as restless as I am  
Got no answers, got no plan  
It's time to finish what I began

Faster than you and want more  
Keep your foot down to the floor  
Say it doesn't matter, I'll be going faster  
I'll take you straight to the wall

Drag my fist on the open road  
Eyes are on fire and I can't let it go  
Broke my wrist and it broke my home  
Gauzing it first, I was sterile

Well, I find you as restless as I am  
Got no answers, got no plan  
It's time to finish what I began

Faster than you and want more  
Keep my foot down to the floor  
Say it doesn't matter, I'll be going faster  
I'll take you straight to the wall

Ride my death ray  
Head long for straight-aways  
It won't burn out, it just fade away  
Over on one and I'm here to stay

Well, I find you as restless as I am  
Got no answers, got no plan  
It's time to finish what I began

Faster than you and want more  
Keep my foot down to the floor  
Say it doesn't matter, I'll be going faster  
I'll take you straight to the wall

I'll take you straight to the wall  
I'll take you straight to the wall  
I'll take you straight to the wall  
I'll take you straight to...
