Dig Me Out

Injected

Well, you've gone and traded, for the last time, my dear
Left me frustrated, for the last time, in my hands
So if you wanna live, well I'll let you out right here
And if you wanna break one off

So cut me out, pull me down
All the bridges that you burn, stay cut down
So dig me out, pull me down
All the hell you gave to me, is gonna come back round

Keep a good shot, bathe in my hate, it's you on the other end
It's time to play with your only boy, 'cause I'm here laughing
So if you wanna live, well I'll let you out right here
And if you wanna break one off

So cut me out, pull me down
All the bridges that you burn, stay cut down
So dig me out, pull me down
All the hell you gave to me, is gonna come back round
Well, it come back round
It's gonna come back round

Yeah, can't stop my bad blood boiling over
And the cross you have, yeah
So if you wanna live, well I'll let you out right here
And if you wanna break one off

So cut me out, pull me down
All the bridges that you burn, stay cut down
So dig me out, pull me down
All the hell you gave to me, is gonna come back round
Well, it come back round
It's gonna come back round
